

DRIVEN BY POSSIBILITY

CERTIFICATE OF COMPLIANCE SYNCHRONOUS BELTS

GATES EUROPE, Industrial P.T. BVBA, hereby certifies that the PowerGrip®, PowerGrip® HTD, PowerGrip® GT4, PowerGrip® GTX, Twin Power®, Long Length and Poly Chain® synchronous product ranges, are manufactured using elastomeric compound resistance to oil, heat, ozone, UV (sunlight), weather and ageing.

Furthermore, the standard belts and slabs in Gates PowerGrip® HTD 14M, PowerGrip® GT4 in 8MGT and 14MGT pitches, PowerGrip® GTX in 8MX and 14MX pitches and belts in Poly Chain® Carbon™ Volt® in 8MGT and 14MGT pitches comply with the International Standard ISO 9563:2015 regarding electrical conductivity of antistatic endless synchronous belts. Gates standard PowerGrip® and PowerGrip® HTD comply respective with International Standards ISO19347:2015 and ISO13050:2014 as for belt tooth dimensions, belt widths and tolerances, pitch length measurement and sprocket compatibility.
