

DRIVEN BY POSSIBILITY

CERTIFICATE OF COMPLIANCE

MICRO-V® BELTS

GATES EUROPE, Industrial P.T. BVBA, hereby certifies that the Gates standard Micro-V® PJ, PK, PL, PM belt product ranges are manufactured using special rubber compound with resistance to oil, heat, ozone, UV (sunlight), weather and ageing.

The belts are designed to meet the standards ISO 1813:2014 and RMA IP-3-3:1995 regarding electrical conductivity of antistatic belts. (*)

All mentioned Gates standard Micro- V ® belts comply with the standards ISO 9982:1998, DIN 7867:1986 and RMA IP-26: 2009 as for marking, section, measuring, tolerances, applicable pulleys and transmittable load.

(*): except Micro-V® PK belts
