CERTIFICATE OF COMPLIANCE

V-BELTS – INDUSTRIAL

2026

GATES INDUSTRIAL EUROPE, Industrial P.T. SARL, hereby certifies that standard V-belt product ranges: Hi-Power®, Super HC®, Super HC® MN EE, Quad-Power® 4, Predator®, Delta Classic™, Delta Narrow™, Tri-Power®, Hi-Power® Dubl-V, Hi-Power® PowerBand®, Super HC® PowerBand®, Quad-Power® 4 PowerBand® and Predator® PowerBand® are manufactured using special rubber compound with resistance to oil, heat, ozone, UV (sunlight), weather and ageing.

Furthermore, the belts are designed to meet the ISO 1813:2014 standard regarding “Electrical conductivity of antistatic belts” (*).

All standard sizes meet the Gates UNISSET length tolerances (**), which allow the belts to be installed without the need for additional matching.

All mentioned Gates standard V-belts, comply with the respective standards (depending on section) BS3790 / ISO4184 / DIN 2215 + 7753 / RMA IP20 + IP22 as for marking, section, measuring, center distance variation, applicable pulleys and transmittable load.

(*): except Predator® PowerBand® 8VP made by Gates Mexico

(**): except Super HC® PowerBand® and Predator® (PowerBand®)
