

DECLARATION OF COMPLIANCE WITH REGULATION REACH 1907/2006/EC

Dear Customer,

Chiaravalli Group S.p.A. sells worldwide products which must satisfy environmental standards and the requirements of various countries and regions.

As you know, on 1st June 2007 REACH Regulation 1907/2006/EC on the evaluation, authorization and restriction of chemical substances came into force. This Regulation is about the production, the use of chemical substances and their potential impact on human health and environment.

With reference to Substances of Very High Concern (SVHC) as defined in the Article 33 and included in the attachment XVII, we have procedures in place to identify all products that may include SVHC above the reportable limit.

Chiaravalli Group S.p.A. has reviewed all of its products for compliance with REACH, and, in accordance with the criteria for identifying "Substances in Articles", we report that none of our products releases, or is likely to release, any substance in this classification. Therefore no material was recorded on the SCIP database.

This statement concerns substances in Commission Regulation (EU) 2020/171 of 6 February 2020 amending Annex XIV to Regulation (EC) No 1907/2006 of the European Parliament and of the Council.

The list of substances can be consulted (published in accordance with Article 59(10) of the REACH Regulation) at the following link: <https://echa.europa.eu/it/candidate-list-table>
